

**ANNUAL MEETING**  
**OCTOBER 4, 2018**  
**HOF TER MUSSCHEN, BRUSSELS**

**BSAC**

Belgian Society for Advancement of Cytometry

**BSAC'S CLINICAL AND RESEARCH EVENING SEMINAR**

- 15h30 – 16h00: Welcome & Registration
- 16h00 – 18h00: New technologies in flow cytometry research**
- 16h00 – 16h40: Phenotyping the human immune system  
*Adrian Liston, head of FACS core KULeuven, Leuven, Belgium*
- 16h40 – 17h20: Use of CyTOF Mass Cytometry in (pre-) clinical studies  
*Frederic Stevenaert, Johnson & Johnson, Beerse, Belgium*
- 17h20 – 18h00: Computational flow cytometry: from automated gating to immune systems dynamics  
*Yvan Saeys, Head of bioinformatics group VIB-IRC, UGent, Ghent, Belgium*
- 18h00 – 19h00: Sandwich break**
- 19h00 – 21h00: Flow cytometry accreditation in the clinical laboratory**
- 19h00 – 19h40: Accreditation support and Workflow-optimization: Why do you need both?  
*Lucia Testolin, European marketing manager clinical flow cytometry, Becton Dickinson*
- 19h40 – 20h20: Tools to support the accreditation in Flow Cytometry : instrumentation, reagents and process  
*Antoine Pacheco and Damien Simoens, Beckman Coulter*
- 20h20 – 21h00: Accreditation in flow cytometry: discussion of guidelines  
*André Gothot, ULg, Liège, Belgium*
- 21h00: Farewell**
